

Local Curlers Successful in Alberta Bonselpiels

A Bassano rink, skipped by Wm. McLavie, entered the Royal Canadian Curling Club, Alberta Branch, Bonselpiel, held in Calgary last week, and carried away double honors and came home with considerable jewelry.

This rink gained recognition by being the only rink entered to win two first prizes, winning both the Birks and the Bonselpiels.

Leading two games and winning one on Monday, this rink went on to win three games on Tuesday, two games on Wednesday, three on Thursday, before losing a game in the final on Friday.

This record, set by a rink with two junior curlers on its personnel, is something to be proud of.

Bassano gained considerable public last week, being conspicuously mentioned in both the Calgary Daily Papers as the home town of this notable rink.

Personnel of the rink was, Wm. McLavie skip, A. Simpson, second, J. Law, third, A. Simpson, fourth, J. Law, fifth, A. Simpson, sixth, J. Law, seventh, A. Simpson, eighth, J. Law, ninth, A. Simpson, tenth, J. Law.

Two rinks from the local curling club motored to Calgary last week to enter the three day Bonselpiel, staged by the Calgary Curling Club.

The personnel of the rinks were: I. Young, skip; Clark, third; M. McLavie, fourth; A. Simpson, fifth; J. Law, sixth; A. Simpson, seventh; J. Law, eighth; A. Simpson, ninth; J. Law, tenth.

The Young rink crashed the jewelry in two events, the only one open to visitors, capturing both the major prizes.

Scott's rink failed to click in either event. They gave their opponents some close games but lacked that necessary something that wins curling games.

Both rinks reported a very good time, stating the Calgary Club gave them two rinks competing in curling.

With the McLavie rink in Calgary last week, curling was very quiet at the local rink for the junior curlers to get some extra games, which we understand they did.

Social Credit Notes

An added attraction at the next regular meeting of the Old United Group to be held in the I.O.O.F. Hall on Thursday, Feb. 11, will be a social evening sponsored by the entertainment committee of the group. The public are invited to attend these functions. Members are expected to be present. Don't forget - Feb. 11. Please be on hand.

PILOT SAVVY LANDS PIERCELESS PLANE

CHIEFMAN, Alta. When the prepper paraded with his plane at an altitude of 3,000 feet in the fog, Pilot Alex Dams made a perfect deadstick landing without injury to his passengers or damage to his plane.

Dams was flying through fog in which visibility was almost nil above the snow-covered Athabasca River Delta, when with a sudden jerk the propeller came loose.

The plane went into a nose dive and Dams, not yet aware what had happened, pulled it out and levelled it, then, discovering the propeller missing, he skillfully piloted the machine to a dead-stick landing.

Notes of Time and Place of NOMINATION

TOWN OF BASSANO

Municipal Elections 1937

PUBLIC NOTICE is hereby given that I will attend at the Town Hall, Town of Bassano, on Monday, the 1st day of February, 1937, from 11 o'clock in the forenoon until 12 o'clock noon, for the purpose of receiving nominations for candidates for the Office of Mayor and Councillor for the next ensuing two years, and nominations for School Trustees and Representative on Municipal Board.

GIVEN under my hand at Bassano this 25th day of January, 1937.

JAS. R. DONALDSON, Returning Officer.

The Weather

The weather for the past few weeks has been anything but mild.

Temperatures have ranged from 40 degrees below upwards, with only a few readings above zero.

Last Saturday afternoon was the warmest of the season, with a high of 50 degrees.

Now, however, a cold front is moving in, and a high of 50 degrees is followed by a high wind which reached the velocity of about 15 miles an hour.

The wind, however, stopped blowing about 3 p.m. Sunday, and at daylight everything looked calm and peaceful, with indications of a break in the prolonged cold spell.

These indications, however, were soon crushed on Tuesday, when more snow was falling, and a cold west wind blowing.

The roads for the most part were blocked. Traffic from the west was blocked by huge drifts of snow.

Mr. and Mrs. C. Archibald spent Sunday with Mr. and Mrs. A. P. Miller.

Miss Mary Lou Stander spent the week-end at her home here.

Mr. E. Jarbush and Leona spent Friday visiting at the Harwell home.

The Annual School Meeting was held in the Gem School on Saturday, Jan. 23rd. There was a good attendance in spite of the storm. Mr. Bill George was elected to take Mr. Wallace's place for the ensuing year.

The Excelsior Club met at the home of Mrs. J. H. McFarlane last night. There was a large attendance and the election of officers took place. Mr. Jim George was made President. A happy time was spent.

Mr. Hucy Gayford has returned to Bassano after spending a week with Mr. and Mrs. H. Herford.

The Western Wheat Crop and the Railways.

In reviewing the 1936 developments with regard to the railway situation Sir Edward Beatty, President of the Canadian Pacific Railway, in his annual report of economic conditions in the Dominion said that the railways lost heavily from drought conditions in the grain growing areas of the west. He said that while Canadian grain loadings of grain and grain products for the first 11 months of the year increased over the same period of 1935 by 24,600 to a total of 321,247, this increase only about one-third of the loss.

Compared to the year 1935, the same conditions in the Dominion said that the railways lost heavily from drought conditions in the grain growing areas of the west. He said that while Canadian grain loadings of grain and grain products for the first 11 months of the year increased over the same period of 1935 by 24,600 to a total of 321,247, this increase only about one-third of the loss.

Bonselpiel Postponed Bassano Board of Trade Elect Officers for 1937

Due to the impassable road conditions, it has been decided to postpone the Bonselpiel until Feb. 10, 11 and 12th. However, the Committee have been busy and through the co-operation of a number of Calgary firms and local merchants and business men, have gathered together a fine array of prizes. Two major competitions are again being featured, each with four sets of prizes, and these prizes being satisfactory enough to find themselves eliminated from both contests will find in the consolation prize, a fine prize worth striving for. All prizes will be on display in the King Store window through the kind co-operation of Mr. King.

To this a number of entries from local shops have been up to the standard. Non-members as well as club members are eligible and special provision has been made for the older boys attending school, who wish to try. Get busy all you can before the prizes are gone.

Mr. and Mrs. W. E. Tracy, Mr. and Mrs. J. B. King and Mrs. C. T. Armstrong motored to Calgary on Friday. Mr. King is ill and expected to be in the Holy Cross Hospital. Mr. King remained in Calgary also. Mrs. Armstrong returned on Saturday with Mr. Armstrong, who had gone on on Thursday. Mr. and Mrs. Tracy returned Friday.

The Husar Ladies Aid will meet at the home of Mrs. E. W. Lawrie on Feb. 11th. All ladies are invited to be present.

THE TOWN STATEMENT

In this issue we can get particular attention to the financial statement of the Town for the year just ended, and would advise our readers to peruse it carefully, and study it as their own business.

Being new to this community, we do not feel qualified to discuss this statement in detail, but it is gratifying to learn that notwithstanding the adverse economic conditions, all debts including debentures have been met in full and that no part, default has been rendered necessary.

What may result in the immediate future is "in the lap of the gods," but so far as we can see with our limited knowledge of the affairs of the community, the Town Fathers will be able to operate through 1937, and give a reasonably fair crop should be given to the public.

The annual meeting of the electors is called for eight o'clock on Friday, Jan. 29th, 1937. We understand that it is the habit of the electors to appear in attendance at this meeting. This, in our view, would indicate one of two things: (1) Complete satisfaction with the manner in which the corporate affairs have been run; (2) absolute indifference on the part of the citizens generally.

Even admitting that the first may be true, it is still the duty of every interested party to attend this meeting and find out for himself or herself, what has happened in the year just gone. An intelligent interest on the part of the citizens in their affairs should prove of great assistance to the council and conversely if things have not been run to the satisfaction of anyone, the proper basis to air one's complaints in this regard is at this meeting, and not on the street. Presumptuous therefore as it may be, we take the liberty of inviting you to a conspicuous attendance at this meeting, which is, after all, only the annual "tick-taking" of your affairs, and without which no business can be operated successfully.

YEAST FROM WOOD

For years the waste products from paper mills have been poured into lakes and rivers—a total loss. Now a price has been developed to utilize them of yeast. A mill at Liverpool, this waste material for the product Nova Scotia, with a daily production of 4,000 pounds in the operation, with further mills planned for other Canadian points.

Scientists have long dreamed of utilizing the sugar contained in wood. After chemical processes involved in the making of pulp for paper manufacture there is left a small percentage of sugar in the liquid that remains. Early attempts to take the sugar from the liquor were without success. Even the stress of wartime substitution failed to produce a practical method. It remained unsolved until 1925, when a Swedish chemist, O. Holten, succeeded.

By various chemical processes, yeast cells are made to devour the sugar in the liquid waste from the pulp mill; eleven pounds of seed yeast multiplies into twenty-six tons of yeast. Then the greatly multiplied yeast cells have all packed in a conventional manner. Each ton of waste liquid makes forty to fifty-five pounds of yeast. Just recently, for example, how the forests serve Canadian industry.

WHO IS THE HEIR

(Christian Science Monitor)

If for any reason George VI were to vacate the throne of England before an act of Succession were passed, it is doubtful whether any monarch could ever rule again legally and constitutionally in Britain. Such is the opinion of recognized authorities on the situation arising out of the fact that the King and Queen of Great Britain have no daughters and two daughters only.

In real estate the elder of two daughters has no prior claim over the younger, the estate has to be equally divided. Where an inheritance is of such a nature that it cannot be divided, for example, where title of a barony capable of descending only in the female as well as the male line, the title goes into abeyance. The case of the earldom of Cornwall, in 1893, indicates that the same rule holds for titles as well as for the barony.

On two occasions it is true, the daughters of an English king have

succeeded to the throne in the order of their age. But this affords no true parallel for neither Mary and Elizabeth, daughters of Henry VIII, nor Mary and Elizabeth, daughters of James II, came to the throne by virtue of hereditary rights. They ruled in consequence of an act of parliament.

In all English history and English law, therefore, it is doubtful whether there is anything that suggests that the Princess Elizabeth, the elder daughter of George VI, has a prior claim to the throne before her sister Margaret Rose. There is this obvious ground for a new Act of Succession, for without it the crown passed whereby this doubt could be removed.

"IF" OR "ET"

The following clever rhyme will tell you straight on whether to spell it "if" or "le." Do you have difficulty in deciding? Or are you too rushed to decide and write it either way and let it go at that. Memorize the verse and you'll never stumble again over this snag on the road to perfect spelling.

When "if" and "le" both spell "it," How can we tell which it shall be? Here is a rule you may believe, That never, never will deceive.

All such problems will relieve; A simpler rule you can't conceive. It is not made of many pieces, And will never deign to yield. While a warrior holds his shield, Or has strength his arm to wield. Two exceptions we must note, Which all scholars learn by rote, Forbear to be first of these; For the second we have:

THIS HUMAN RACE

The human race, through ages and centuries of experience, against itself in adversity, have unity that to perpetuity. The reason is that those who are survivors of the race's struggle to preserve itself are the descendants of countless ancestors who learned to take it on the chin.

Opinions

The worst thing about money is that it often costs too much to have.

You shouldn't stay out of a man's story because you don't belong to it. That's church—Hos. W. B. Baker.

If you do not like a man pass him up. Pass out the people you hate. Forget them. Hating them will not harm them, but it will harm you—Y.A.

To make knowledge valuable, you must have the cheerfulness of wisdom. Goodness smiles to the last—Emerson.

Know from the hounteous heavens all riches flow. And what man gives, the gods by man bestow—Homer.

There is no reason why education against crime should not be a primary factor in the common schools—J. Edgar Hoover.

It is plain enough that if a European war breaks out it will be no devastating for generations to come Europe will be living in another dark age—Walter Lippmann.

In the days of George Anne news-brokers had great writers and small circulations. Now we have large circulations. I am not sure sure how to finish that remark.

"Is he much of a tennis player?" "Well, he admits he is singularly bad in doubles and everyone else says he is doubly bad in singles."

Canadian and world skiing enthusiasts will have an opportunity to test the Rocky Mountain claim of having ski facilities. The annual ski championships of the Canadian Amateur Ski Association are held from March 2 to 8 on the steep slopes of 8,275-foot Mount Norquay, four miles from the Canadian Pacific Railway station at Banff.

PRIZE RHYME

In an Atlanta school a prize was offered for a story of the newest rhymes in rhyme. A coloured boy wrote:

"A mule in the barnyard, lay and
A boy with a pin on the end of a stick
Slips up behind him as still as a mouse—
Crops on the door of the little boy's house."

Money is of very uncertain value and sometimes has no value at all and even less—Carlyle.

HEALTH

A HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION AND LIFE INSURANCE COMPANIES IN CANADA

CLOTHING FOR INFANTS AND CHILDREN

Is your child dressed too warmly? Probably he is. Almost every mother puts too many clothes on her child. Too many clothes make the child sweaty, give him skin eruptions and make him more susceptible to colds and other infections.

Children should be dressed properly for health and comfort. The rule to follow for the amount of clothing is—If the child perspires, less is required; if the hands and feet are cold and the face is pinched, more is required. Thus the run-around child should be dressed so that when in the house he does not perspire. When going out of doors, outer garments such as sweaters, snow suits, leggings, coats, etc., should be put on. It is

a mistake to keep a child down with a lot of heavy underclothing which makes him perspire and is uncomfortable while in the house. In hot weather, the child should be clothed with a sun-suit which allows freedom, is comfortable, and allows the child to get tanned.

How about the baby? Here the tendency is even stronger to bundle him up with more clothes than he needs. In the winter time the baby should have a shirt of wool and cotton or wool and silk, over this a flannellette garment and a cotton dress. Long stockings or knee-length hose are necessary to keep the feet warm. If the baby needs more, sweaters should be used. It is very important that the dress and garment are not too long enough to hinder the movement of the legs. When going out of doors, mitts, bonnets, blankets and sleepings are used. The hinder should never be used after the cord has healed, which is around two weeks of age. In the summer the baby should have no clothing removed so that he does not perspire. In the very hot weather a diaper is all that is necessary.

To sum up, clothe your child to be comfortable in the house, and add outer garments when he goes outside.

Trophies of a night "Picture Hunt"

THE "Treasure Hunt" and the "Scavenger Party," so popular in recent years as a form of amusement for night social gatherings, now have a rival in the "Picture Hunt."

Instead of going out to find concealed "treasures" or queer objects in the highways and byways, the participants go out with their cameras to bring back night photographs. The negatives are developed and printed while the contestants are at supper, dining or otherwise amusing themselves. Prizes are awarded to the takers of the most successful pictures.

Is this exciting? Each participant is given a considerable list of subjects from which he or she may make a choice of one or more—such as "Street Scene," "Waterfront Scene," "Night Club," "Theater Entrance," "Traffic Policeman," "Hotel Chef" and the like.

All the "hunters" start out together and must return to their trophies within a given time. Arrangements are made with a photo finisher to receive the negatives, do quick job of developing the finished prints at the headquarters of the hunt before midnight. The pictures are then viewed and judged for prizes by a committee of non-participants.

Some of the subjects are assigned may call for flash bulbs, super-sensitive film, and an ultra-fast

lens, the scope of the hunt generally is broadened and the subjects are those that do not require all of these aids. For instance, a contestant owning an ordinary camera may successfully photograph an ordinary fair a brilliantly illuminated street or sky-scapes by making a time exposure. Again, such a picture as a theater entrance may be snapped without flash bulbs, if a fast lens and super-sensitive film are used. Usually no limit is placed on the number of exposures for any subject. Under such rules, the hunt of the night is wide open to all types of equipment.

Picture hunting at night not only proves a test of picture-taking skill and judgment, but it offers interesting adventure, and each one's account of how his pictures were obtained proves a big part of the evening's fun.

Tricked instantly in New York by a group of "socialists," the picture-hunters have spread and is being adapted also to daytime picture hunting. The daytime hunt appeals especially to club, church and other social organizations. It winds up in the evening as the main feature of a dinner or supper party at which the pictures are displayed and judged. Subjects pertaining to the activities of the organizations are assigned and the pictures, in addition to their pictorial interest, serve of considerable historical value to the organization.

JOHN VAN, OUTLDER.

LOCAL AND PERSONAL NOTES

Mr. J. H. Johnston of the James Johnston spent the week-end in Calgary.

Miss Doris Landon of Brooks started work at the Imperial Coffee Shop last Saturday.

Larry Edwards and little daughter Mary were visitors to Calgary last Friday.

BORN—At the Hospital to Mr. and Mrs. Fred G. Ruterhake of Husker, a son on January 27th, 1937.

Miss Gopie Anderson who for the past few months has been employed in Bassano, is returning to her home in Medicine Hat this week.

Margaret Harper, Connie MacBeth and Dorothy Lewis returned to school after being home a week with the flu.

Fred Galarman, Sr. from Galarmanville, north of the Red River, was a Bassano visitor this week. Fred says there is plenty of snow across the river too.

Mr. and Mrs. Herplick of Wakefield who have been visiting in the United States for the past few weeks were in Bassano on Monday, passing through here on their way home.

Mrs. N. C. MacLeod and little daughter Betty, of Medicine Hat, was a Bassano visitor last week, spending a few days with Mrs. MacLeod's parents, Mr. and Mrs. L. Y. Bernier.

Little Norma MacLeod has been out of school this week owing to sickness. Mrs. B. S. Wight has been ill for the past two weeks. Her many friends will be glad to hear she is improving.

Mrs. L. Allen and two children of Calgary were week-end visitors at the home of Mr. and Mrs. Chas. Wilson. Mrs. Wilson, who is at present in the hospital under the doctors care, is a sister of Mrs. Allen.

Miss Betty Plummer entertained a number of young folks on Saturday to a toboggan party and sleigh ride. A pleasant evening was spent later on in her home and a lovely supper was served to about sixteen boys and girls.

Local citizens for the past week have been wishing that the pretty little, freshly scented animal who seems to have taken up residence in the vicinity of the Post Office, would move to some distant part of the province never again to return.

G. B. Warren, agent for the Alberta Pacific Grain Co. of Bassano, was fortunate in securing a certificate from the Grain Insurance Board of Winnipeg, for care of property and fire prevention. This is the fourth consecutive year Mr. Warren has secured the certificate.

Mr. and Mrs. W. MacLean and Mr. and Mrs. M. A. MacLean returned to Calgary last Saturday to attend the funeral of Mrs. James MacLean of Calgary. Owing to the blizzard they had to leave their car in Calgary and return by train.

Ralph Poole, who has been in town for the past two weeks receiving medical treatment says he's getting so he likes this city life and hates to leave town. Ralph says its only the last couple of days that he hasn't shed at every car that passes him.

College boy (to dad at football game): "Now you'll see more excitement for two dollars than you did." "I don't know about that, ever saw before."

Office boy: "Please Sir, I think you wanted on the phone."

Employer: "You think. What's the good of thinking?"

Boy: "Well, Sir, the voice at the other end said 'Hello, is that you, you old idiot.'"
